

Request for FCS Data

- Run 22 st_fwd stream, no TPC, no forward tracking
 - Only raw data from FCS, sTGC, and FST
 - Also ask for FCS cluster information
- Data uses
 - Transverse single spin asymmetry of π^0
 - Hadron calorimeter calibration
 - Ecal to Hcal energy calibration
 - (Jet Calibrations) Siverson TSSA with Jets
 - J/Psi analysis
 - General QA of Forward tracking software
- Talked with Gene will only take about 1 week to produce this dataset, waiting for dataset with tracking may take several months to a year.
 - Stability of Fwd software packages
 - TPC calibrations
